HgCdTe
– Eliminating low-frequency $1/f$ noise in — by sputtering - Zheng et al. 119B (1983) 249
High pressure (see $CrS_{1.17}$) 119B (1983) 154
High pressure (see *Fe–Zr alloys)* 119B (1983) 192
High pressure (see *Invar alloys)* 119B (1983) 149
High pressure (see *Magnetically competing systems)* 119B (1983) 142
High pressure magnetic and neutron scattering experiments (see *One-dimensional magnetic conductors)* 119B (1983) 43
Hyperfine specific heat (see PrX_2 *compounds)* 119B (1983) 215

Ice formation (see *Supercooled water)* 119B (1983) 243
Infrared spectra (see $PbGeS_3$) 119B (1983) 283
Instability threshold (see *Liquid crystals)* 119B (1983) 299
Internal friction (see *Nispan C type alloy)* 119B (1983) 125
Invar (see *Electron–phonon interaction)* 119B (1983) 30
Invar (see *Fe–Pd alloys)* 119B (1983) 84
Invar (see *Local magnetic moment)* 119B (1983) 90
Invar alloys
– Magnetovolume effect of — under high pressure - Oomi and Mori 119B (1983) 149
Invar effects
– An itinerant - electron theory of — - Hasegawa 119B (1983) 15

Invar problem (see $Dy_2(Fe–M)_{17}$) 119B (1983) 180
Invar properties
– Anomalous elastic properties of Fe—Ni (fcc) alloys and their — - Tanji et al. 119B (1983) 109
Itinerant electron antiferromagnet
– Elastic anomaly in — - Yamada 119B (1983) 99
Itinerant electron ferromagnetism (see *Electron–phonon interaction*) 119B (1983) 30
Itinerant electron ferromagnetism (see *Fe-base Invar alloys*) 119B (1983) 78
Itinerant electron ferromagnetic alloys
– Influence of long-range order on magnon energy in — - Lipiński and Morkowski 119B (1983) 37
Itinerant electron model (see *Y–Ni compounds*) 119B (1983) 133
Itinerant electrons (see *Invar effects*) 119B (1983) 15

Landau theory
– — for a cubic to tetragonal structural phase transformation - Choy et al. 119B (1983) 56
Liquid crystals
– On the stability threshold of — subjected to external fields - Barbero and Bartolino 119B (1983) 299
Liquid helium (see *Liquid natural gas*) 119B (1983) 279
Liquid natural gas
– Prospects and behaviour of — in cryoequipments - Hossam-Eldin 119B (1983) 279
Local magnetic moment
– Contribution of the temperature change in — to the Invar effect - Yamada 119B (1983) 90
Local structural transformation (see *Co-rich glasses*) 119B (1983) 173
Long-range order parameter (see *Itinerant electron ferromagnetic alloys*) 119B (1983) 37
Loss factor (see *Liquid natural gas*) 119B (1983) 279
Low temperatures (see *Fe–Cr–Ni–Mn alloys*) 119B (1983) 115

Magnetic interactions (see *π-orbitals*) 119B (1983) 252
Magnetically competing systems
– Recent studies of the — under high pressures - Fujiwara 119B (1983) 142
Magnetic phase diagram (see *Magnetically competing systems*) 119B (1983) 142
Magnetic phase transition (see $CrS_{1.17}$) 119B (1983) 154
Magnetic properties and materials (see *Y–Ni compounds*) 119B (1983) 133
Magnetic transition (see *Fe–Cr–Ni–Mn alloys*) 119B (1983) 115
Magnetization (see PrX_2 *compounds*) 119B (1983) 215
Magnetoacoustic waves
– — near the points of spin-reorientation phase transitions and magnetoelastic oscillations of domain walls - Turov 119B (1983) 184
Magnetoelastic oscillations (see *Magnetoacoustic waves*) 119B (1983) 184
Magnetoelastic phase transition in 1-d magnets (see *One-dimensional magnetic conductor*) 119B (1983) 43
Magnetoelasticity (see *Ferromagnetic metallic materials*) 119B (1983) 203
Magnetoelasticity (see *Magnetoresistance*) 119B (1983) 198
Magnetomechanical properties (see *Fe–B–Si alloys*) 119B (1983) 187
Magnetoresistance
– Observation of magnetoelastic effects by — measurements - Kern and Gonser 119B (1983) 198

Magnetoresistance (see *Ferromagnetic semiconductors*) 119B (1983) 309
Magnetostriction (see *Enhanced paramagnets*) 119B (1983) 167
Magnetostriction (see *Ferromagnetic metallic materials*) 119B (1983) 203
Magnetostriction (see *Paramagnetostriction*) 119B (1983) 161
Magnetostriction (see *Quadrupolar pair interactions*) 119B (1983) 168
Magnetovolume effects (see *Critical concentration*) 119B (1983) 174
Magnetovolume effects (see *$Dy_2(Fe-M)_{17}$*) 119B (1983) 180
Magnetovolume effects (see *Fe-base alloys*) 119B (1983) 188
Magnetovolume effects (see *Ferromagnetism*) 119B (1983) 21
Magnetovolume effects (see *Invar alloys*) 119B (1983) 149
Magnetovolume effects (see *Invar effects*) 119B (1983) 15
Magnetovolume effects (see *Local magnetic moment*) 119B (1983) 90
Magnetovolume effects (see *Transition metals and alloys*) 119B (1983) 3
Magnetovolume effects (see *Very weak itinerant ferromagnetism*) 119B (1983) 25
Magnetovolume effects (see *Moriya–Kawabata theory*) 119B (1983) 330
Magnetovolume effects (see *Moriya–Kawabata theory*) 119B (1983) 333
Magnon energy (see *Itinerant electron ferromagnetic alloys*) 119B (1983) 37
Manganese alloys (see *Itinerant electron antiferromagnet*) 119B (1983) 99
Martensitic transformation (see *Itinerant electron antiferromagnet*) 119B (1983) 99
Martensitic transformation (see *Mn–Cu alloys*) 119B (1983) 51
MEM-$(TCNQ)_2$ (see *One-dimensional magnetic conductor*) 119B (1983) 43
Mn–Cu alloys
- Bulk modulus and martensitic tranformation in — - Tsunoda et al. 119B (1983) 51
Mn^{2+}-doped $ZnSiF_6 \cdot 6H_2O$
- EPR of Mn^{2+}-doped single crystal of $ZnSiF_6 \cdot 6H_2O$ - Misra and Jalochowski 119B (1983) 295
Mobility fluctuations (see *1/f noise*) 119B (1983) 290
Molecular field theory (see *Quadrupolar pair interactions*) 119B (1983) 168
Moriya–Kawabata theory (see *Very weak itinerant ferromagnetism*) 119B (1983) 25
Moriya–Kawabata theory
- Comments on "Magnetovolume effects in the — of very weak itinerant ferromagnetism" by D.M. Edwards and C.J. Macdonald - Moriya (*Letter to the Editor*) 119B (1983) 330
- Response to comments by T. Moriya - Edwards and Macdonald (*Letter to the Editor*) 119B (1983) 333
Mössbauer effect (see *Fe–Pd alloys*) 119B (1983) 84

Nematic liquid crystals (see *Liquid crystals*) 119B (1983) 299
Neutron diffraction (see *PrX_2 compounds*) 119B (1983) 215
Neutron-irradiated silicon
- Annealing mechanisms in — - Thaler et al. 119B (1983) 325
Nispan C type alloy
- Influence of thermal and mechanical treatment on internal friction, modulus of elasticity and its temperature stability in — - Kaczkowski 119B (1983) 125

O_2-molecules (see *π-orbitals*) 119B (1983) 252
One-dimensional magnetic conductor
- High-pressure effects on the $2k_F$ and $4k_F$ transitions in the quasi — - Bloch et al. 119B (1983) 43

Onset of ferromagnetism (see *Y–Ni compounds*) 119B (1983) 133
Orbitally degenerate systems
- On the magnetic interactions between ions with degenerate π-orbitals - Fuchikami and Block 119B (1983) 252

Paramagnetostriction
- — of transition metals - Fawcett and Pluzhnikov 119B (1983) 161
